June 18, 2015

Farmingville, NY - On June 15, the Town of Brookhaven was presented with a \$10,000 check from PSEG Long Island for adopting the Suffolk County Planning Commission's (SCPC) model geothermal code. PSEG Long Island will provide implementation assistance of \$10,000 to each township and \$5,000 to the first ten villages with a population greater than 5,000 in Suffolk and Nassau Counties that adopted the model geothermal code by May 31. Geothermal systems utilize the constant, below-ground temperature to heat and cool buildings and homes to save energy and money.
